Technical Business Analysis | Systems Analysis | IT Infrastructure | Project Management

PROFESSIONAL SUMMARY

Hybrid professional with hands-on IT infrastructure project experience and current Master's studies in Business Analytics. Combines practical understanding of systems, networks and project delivery with business analysis, process improvement and data skills (SQL, Power BI). Experienced in coordinating IT infrastructure projects in Singapore and delivering service standards across international hotel brands. Strong cross-cultural communication, stakeholder management and the ability to translate operational needs into clear, structured solutions. Currently based in Christchurch and available for full-time or project-based roles.

| • Technical Business Analysis | • Systems & Process Analysis | • IT Infrastructure Coordination |
| • Project Management & Delivery | • Stakeholder & Vendor Communication | • Requirements Gathering |
| • SQL, Power BI & Data Reporting | • Cross-Cultural Collaboration | • Continuous Improvement |

PROFESSIONAL EXPERIENCE

Operations Support | SparkClean, Christchurch

2025 – Present | Part-time

- Support day-to-day operations for multiple short-term rental units, ensuring readiness standards and operational consistency.
- Identify operational issues, research practical solutions, track resolution outcomes, and apply business analysis thinking from current Master's studies.
- Coordinate with property owners and team members; document problems and follow through to maintain smooth operations.

Project Manager – IT Infrastructure | Lantrovision, Singapore

Jun 2022 – Jun 2025 | Full-time

- Led a 7-person team delivering IT infrastructure and data centre services for major clients including Amazon, Microsoft, Oracle and Bank of America.
- Delivered over 90% of projects on or ahead of schedule through clear communication, structured planning and proactive issue resolution.
- Reduced labour costs by approximately 8–10% and material costs by around 5% through improved coordination and resource planning.
- Coordinated onsite delivery, technical documentation and stakeholder communication to ensure quality standards and timely project completion.

Hotel Operations & Human Resources Support | Hilton, Hyatt & IHG (Crowne Plaza), China / Asia

2005 – 2018 | Full-time

- Worked across major international hotel brands (Hilton, Hyatt, IHG/Crowne Plaza), gaining practical understanding of brand standards, service expectations and operational routines.
- Coordinated staff onboarding and daily service processes across international hotel brands, maintaining brand standards and operational reliability under pressure.
- Delivered consistent service standards across Hilton, Hyatt and IHG brands through cross-team coordination and attention to operational detail.

VOLUNTEER EXPERIENCE

Ambassador | The Arts Centre, Christchurch

Volunteer

- Supported visitor experience by providing information, guiding guests, and assisting with public-facing activities.
- Demonstrated clear communication, approachable service attitude, and reliability in a busy public environment.

Kitchen & Café Service | Delta Community, Christchurch

Volunteer

- Assisted in kitchen operations including food preparation and maintaining hygiene standards.
- Provided café service support with a focus on customer service and operational standards.

KEY CERTIFICATIONS & TRAINING

- SQL, MySQL & Power BI / Fabric (IBM, HackerRank, Kaggle, Oracle University, Microsoft Learn) – 2026
- Essential First Aid + CPR (NZQA 6401 & 6402) – New Zealand Red Cross, 2025
- Diploma in Caregiving & Dementia Care – Online Training, 2025
- Social Worker Certificate & Health Management – Ministry of Civil Affairs, China
- Full New Zealand Driver Licence

PROJECTS

Cleaning Operations Dashboard | Personal Analytics Project | 2026

SQL · Power BI · Data Cleaning · Business Analysis

- Cleaned and anonymised 180 real short-term rental cleaning records from two Operto systems (SparkClean and William Corp).
- Analysed monthly workload trends, regional distribution, and source comparison using SQL (GROUP BY, date functions, filtering).
- Designed an interactive Power BI dashboard with KPI cards, trend charts, region/source breakdowns, and slicers.
- Identified peak months (March, July) and found that the Central region accounted for the majority of tasks (~64%).
